# Introductory

---

**T**HE PUBLISHERS take pleasure in presenting herewith the Eighth Annual Edition of Henderson's Lethbridge Directory, comprising the territory of the City proper and all adjoining subdivisions.

The Advertising Department presents the names of corporations, firms and individuals who are making Lethbridge the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume contains statistics and information, much of which is not to be found elsewhere in print.

The value of the street section is not appreciated, perhaps, by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 1269 Fifth Avenue North is wanted: refer to street section Fifth Avenue North—glance down to 1269, then to the nearest intersection to 1269. It will be found that this number is three houses east of Twelfth Street C North, between Twelfth and Thirteenth Streets.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Lethbridge, which forms a most efficient wholesale and retail buyer's guide.

The Lethbridge Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its Industries.

The Directory method of estimating population is to multiply the individual names the Directory contains by a common multiple. The figures given below are more in the nature of a calculation. A complete census only can give definite and accurate figures.

## 1920 POPULATION OF LETHBRIDGE, 14,365

These figures deal with Lethbridge, and are an estimate only, based upon the number of names the Directory contains. It is not a census.

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and fully appreciate the confidence which the business and professional men of Lethbridge have always shown in their publications.

# Lethbridge, Alberta

---

Lethbridge, Alberta, is a city of 14,500 inhabitants, situated fifty miles north of the international boundary line, 764 miles west of Winnipeg. It is a prairie city on the banks of the Old Man River, just east of the Canadian Rockies, on the Crow's Nest Division of the Canadian Pacific Railway, and is the commercial and agricultural centre and supply point of Southern Alberta and the Crow's Nest Pass coal fields. It is the centre of large coal mining operations. The development of coal mining in this vicinity is the largest in Canada, west of Nova Scotia.

Lethbridge is spoken of by the travelling public as being the most beautiful of all the prairie cities. It is clean and sanitary. Its well kept parks and boulevards merit the admiration of all. As the traveller steps off the train, the first thing that greets his view is a park or garden, covering ten acres, or four blocks, in the centre of the city. By getting on the street cars and travelling eastward he passes through wide streets bordered by rows of trees and boulevards on each side, until he reaches Henderson Park, which covers 200 acres and contains a beautiful artificial lake nearly a mile long, on which there is sailing, rowing and swimming in the summer, and skating in winter.

The street railway system, owned by the city, stretches over eleven miles, and there are two miles of paved roads.

The lighting system is by electricity supplied by a municipally-owned power plant, which is one of the most up-to-date and economical in Western Canada, the fuel used being supplied by a municipally-owned mine within a stone's throw of the plant. This enables the city to sell electric current for lighting and industrial purposes at very attractive rates.

The telephone system embraces the latest models of automatic phones, and is owned and operated by the Alberta Government. The water supply comes from the Old Man River, which has its headwaters in the Canadian Rockies, and affords a never-failing supply of water. The water comes through an up-to-date filtration system, and is then forced up the banks of the river into large mains and distributed throughout the city. The waterworks are owned and operated by the city.

The city government of Lethbridge has been progressive. Lethbridge is the first city in Western Canada to adopt the Commission form of government. Three commissioners with defined responsibilities, and giving their whole time to official duties, administer all the municipal affairs.

This city has a fine class of school buildings for the 2,300 pupils. The schools are all constructed of brick, with stone or cement foundations. They are equipped with all modern conveniences, and consist of four public schools, one Roman Catholic separate school, one manual training school, one kindergarten school, and one high school. Pupils from the Lethbridge schools have demonstrated the efficiency of the tuition provided by taking premier place in the provincial competitions.

The discovery of natural gas has lately provided another valuable attraction for Lethbridge. The city is well piped, the pressure is strong, the quality good and the cost to consumers very low.

This city is situated in the centre of a vast agricultural and coal mining area, and affords ample opportunities for the investor in various lines, such as mining, agriculture, dairying, milling, clay products manufacturer, manufacture of flax products, soap manufacturing and various other lines.

Lethbridge commands the eastern entrance to the Crow's Nest Pass through the Rocky Mountains. Between the city and the mountains, for some seventy-five miles, stretches a fertile plain, the western border of the great prairies. Across this plain the mountains are easily visible from Lethbridge. Eastward the same wonderful prairie stretches to Winnipeg, and southward to the international boundary. The agricultural products of this vast and fertile prairie require an outlet to the Western United States, British Columbia and through the Pacific Coast ports to the world's markets. The most important channel for this commerce is through Lethbridge and the Crow's Nest Pass.

At Lethbridge, mills, elevators, factories, wholesale houses and stores required for the storage, manufacturing, marketing and shipping of this growing business are being provided as the traffic develops. The Canadian Pacific Railway completed its lines through the Crow's Nest Pass to Vancouver in 1916. This route from Winnipeg to Vancouver through Lethbridge and the Crow's Nest is shorter than the line through Calgary and the Kicking Horse Pass. The line through the Crows Nest to the Kootenay and the Columbia Valley country of British Columbia and via Kingsgate to the States of Washington, Oregon and California now serves a large and growing traffic.

Fruit, produce, forest and mineral products from three localities, the imported merchandise intended for consumption by the rapidly increasing population of the great prairies are finding Lethbridge the logical gateway and the most convenient point for storage, assembling, assorting, marketing and reshipping.

Lethbridge is likewise in command of a most important railway line to and from the United States via Coutts. The freer trade relations between Canada and the United States constantly promote the importance of this traffic. Lethbridge will also presently command the short line via Weyburn and Portal to and from Northwestern Canada and the Dakotas, Minnesota and the Central United States.

### COAL MINING

The coal mines within a radius of six miles from Lethbridge produce about four thousand tons of coal per day in the busy season. Coal for storage at prairie cities is mined steadily from June onwards, and the miners are busy right through until March or April.

### AGRICULTURE

Agriculture is making rapid progress in the districts surrounding Lethbridge. There have been adverse seasons through occasional shortage of rainfall, and the farmers have thoroughly learned the lessons regarding the proper cultivation required to meet these climatic conditions. The Canadian Government Experimental Farm just outside the city limits, is under the competent management of Mr. W. H. Fairfield, whose great experience is always freely at the service of the farming community. Grain farming and live stock raising are carried on with great success on the prairie lands, much of which are still unoccupied and for sale at very low prices; while farming and stock raising and feeding operations on the 100,000 acres of irrigated land close to the city are also highly successful.

The grain crop in 1915 was phenomenal in volume. Some 39,000,000 bushels of grain, valued at over \$50,000,000, were shipped from the Lethbridge district in that year, the yields of wheat from individual farms averaging about 50 bushels per acre. The yields in 1916 were also high, the average for wheat being 30 to 35 bushels per acre. In 1917 and 1918, owing to the smaller rain and snowfall, the yields were good, although not so heavy. The year 1919 was a year of short precipitation which told upon the grain crop yield. In 1920, however, the rainfalls came at opportune times, and just before harvesting in August it was anticipated that the railway district in the Lethbridge division of the C. P. R. would produce at least 22,000,000 bushels of wheat as well as about 15,000,000 bushels of other grains—oats, barley, flax and winter rye, the last named having been discovered to be particularly successful for cultivation and yield.

The district holds the world's record for the production of wheat; in 1916 the Nobleford Farm, eighteen miles from Lethbridge, recorded a yield of 54,395 bushels from a thousand acres. The yields of barley and oats have also been prolific, and, like the wheat, of the very highest quality.

The irrigated lands are largely planted to alfalfa, producing an average of  $4\frac{1}{4}$  to 5 tons per acre from three cuttings per season.

The Board of Trade is one of the most active bodies of its kind in Canada. It keeps the farming community and the business men in close touch with each other and does a great deal to further the interests of both.

Farming under irrigation has proved successful and profitable in the areas east and south of Lethbridge where it has been increasingly practiced during the past fifteen to twenty years.

Farming under irrigation, while it must make agricultural operations more intensive, leading to the use of less land per unit of labor, provides against the lack of moisture, and leads to the maintenance of the fertility of the soil.

One of the most profitable crops under irrigation is alfalfa, which is in itself both a humus-builder and a nitrogen provider.

The Lethbridge Northern Irrigation District, which will draw its water from the Old Man river—an all-Canadian stream—is absolutely prepared to proceed at once with construction work just as soon as financing can be arranged. Every detail has been carefully studied by the Reclamation Service of Canada. At the instance of the Alberta Government the proposed project has been reported upon by George G. Anderson, an irrigation engineer of continental repute, having great practical experience both in the United States and Canada, who thoroughly understands all the engineering, financial, agricultural and human elements involved. The water supply at the very lowest stream measurements over a long series of years is guaranteed. There are no engineering works of any magnitude necessary

The farmers who own the 110,000 acres that will be irrigable under the project are most anxious that construction should be proceeded with at once. Estimates of cost, generously conceived even at the present prices for labor and materials, indicate that when tenders are called for they will show that the work can be carried through to a finish at a capital cost of less than \$50 per irrigable acre. That the farmers will amply be able to pay the interest, and repay the capital

on this expenditure during a term of say thirty years is clearly demonstrated by the comparative results in crops grown on dry land and irrigated land at the Experimental Farm, Lethbridge.

Taking wheat alone as an index, wheat production on "dry" land averages 30 bushels per acre, which, allowing for summer-fallowing half the acreage each year, gives 15 bushels annually, against 53 bushels annually on irrigated land—an increase of  $3\frac{1}{2}$  times in production. Even at pre-war prices of around 80 cents a bushels, and cutting down the estimated production to 40 bushels, there would be a gross return of \$32 per acre per annum. Or, again, figuring in terms of alfalfa at the low rate of  $3\frac{1}{2}$  tons per acre at say \$10 per ton, there would be a gross return of \$35 per acre annually.

The Alberta Government has opened communication with the Dominion Government with a view to evolving means whereby the Governments may collaborate on some plan to finance the District. In the House of Commons shortly before Parliament prorogued, the Minister of the Interior disclosed a sympathetic attitude towards the reception of such proposals; and the result of these communications is awaited with the greatest anxiety by all of the people in Southern Alberta, but much more by these farmers who have suffered so great loss from soil-drifting, and whose lands fail to be irrigated under the District.

The progress of the Lethbridge Northern is looked upon as the keystone to further irrigation development. The lands now under irrigation around Lethbridge, roughly 100,000 acres, made a gross production record in 1919 of \$54.71 per acre.

There are three other districts whose lands can be watered, like the Lethbridge Northern, from all-Canadian streams. They are the United District, west of Cardston, 15,000 acres irrigable; the Lone Rock, north of that, 10,000 acres; and the South Macleod, 30,000 acres.

The Dominion Reclamation Service is completing surveys on some of these, as well as on lands around Lomond, Travers, Enchant, and Sundial, northeast of Lethbridge, which may get water for 100,000 acres on an extension of the Lethbridge Northern canals.

In addition to these, irrigation may be carried to great areas south and east of Lethbridge, roughly 400,000 acres, from the waters of the St. Mary's and Milk Rivers; but these streams are not all-Canadian and the question of the division of the use of the waters is now under discussion and adjudication between United States and Canada before the International Joint Commission.

# Educational Information

## LETHBRIDGE PUBLIC SCHOOL TRUSTEES

Elected at large. Meets every second and fourth Tuesdays in Board Room, Central School.

Secretary-Treasurer—J. H. Fleetwood, Central School

Superintendent—J. E. Hodgson

Medical Officer—Dr. D. A. Taylor

K. D. Johnson, chairman; A. B. Hogg, J. Scott, John E. Terrill

### Standing Committees

The Chairman of the Board is a member ex-officio of all committees.

Finance—J. E. Terrill, chairman, K. D. Johnson

Buildings—John Scott

Supply—A. B. Hogg

School Management—R. R. Davidson, chairman, and whole Board

### Central School

Ninth Street South between Fifth Ave. S. and Sixth Ave. S.

Principal—James A. Davidson

Vice-Principal—Philip Collins

**High School**

Fifth Ave. S. between Eighth and Ninth Sts. S.

Principal—J. E. Hodgson

**Fleetwood School**

Ninth Ave. and Twelfth St. S.

Principal—C. E. Brandow

**Westminster School**

East Side Thirteenth St. N. between Fourth and Fifth Aves. N.

Principal—H. H. Bruce

**Galbraith School**

Seventeenth St. and Ninth Ave. N.

Principal—Miss Alice J. Birch

**Hardieville School**

East Side Thirteenth St. N. (Hardieville)

**CATHOLIC SEPARATE SCHOOL TRUSTEES**

Chairman—J. Vaselenak; J. K. Smith, E. J. Sehl and Thomas Long

Secretary-Treasurer—D. J. McSwain

**Catholic Separate School (No. 9)**

110 Ninth St. S

Conducted by Sisters Faithful Companions of Jesus

Principal—Sister Faustine Corish

**St. Basil's School**

West Side Twelfth St. B North near Seventh Ave. N.

Principal—Sister Auroy Fortier

**ST. ALOYSIUS CONVENT (F. C. J.)**

116 Ninth St. S.

Conducted by Sisters Faithful Companions of Jesus

Mother Superior—Sister Mechtilde Clery

**PRIVATE SCHOOL**

1255 Fourth Ave. S.

Principal—S. Bawden

**SCHOOL ENROLMENT**

Public Schools and High School.....	2,259
Separate School .....	379

## THE OBJECTS OF THE ASSOCIATION

The Association of the American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

**\$100.00 REWARD** will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.
